RE: Letter of Confirmation

To Whom It May Concern:

This letter confirms that Gen Pac (General Pacific Inc.) is the authorized territory provider for electric meters to the public power market in the State of Washington.

Gen Pac has been an Itron stocking distributor for Itron products. Itron does not have any other electric meter distributors in the State of Washington who are authorized to sell into the public power market and as such, is considered Sole Source.

Please direct any additional questions to my attention.

Sincerely,

*Nangy Gul*
