FISCAL IMPACT	EXPENDITURE REQUIRED - \$10,000	AMOUNT BUDGETED - \$40,000
	APPROPRIATION REQUESTED \$ 10,000	

SUMMARY: HB1168 was established to significantly increases active forest management across land ownerships to reduce the risk and intensity of wildfires while minimizing greenhouse gas emissions reduction goals. Funding was allocated for wildland operational fiscal needs through a grant process with a zero-match requirement. The city was willing to make available \$11,750 for a previous federal brush truck grant; however, we were not awarded this grant. If we are successful with receiving the HB1168 DNR Operations Grant, we plan to purchase an F550 chasis through the State Bid process and build a Type-5 Brush truck. Given the volatility of inflation and equipment availability, we have calculated a 5% cost increase that may require an additional \$10,000 above what the Grant will provide. Requesting approval to submit both the grant with a no-cost share obligation and the expenditure of upto \$10,000 from our reserves.

COUNCIL ACTION REQUESTED: Approval of Resolution F-018
