City of Cheney - 609 Second Street, Cheney, WA 99004

Our Annual Fuel Mix Report

The City of Cheney Light Department is required by state law to notify its customers each year of the source of the electric power sold to Cheney Light customers. The goal of “fuel mix” disclosure is to educate consumers on the fuel sources that generate this electricity.

As a full-requirements customer of Bonneville Power Administration, Cheney Light’s fuel mix is largely determined by BPA’s own resources and market purchases. The portion that is not based on the BPA fuel mix is Cheney’s environmental preferred power purchases.

For more information about Cheney Light’s wholesale energy purchases, please contact the Cheney Light Department at (509) 498-9230.

Biomass	0.20%
Coal	1.61%
Hydro	87.43%
Natural Gas	2.10%
Nuclear	8.48%
Other Non-Biogenic	0.11%
Petroleum	<u>0.07%</u>
Total	100.00%

Note: Fuel mix data is for 2017, the most recent year data is available.

Do you need or can you be a Snow Angel?

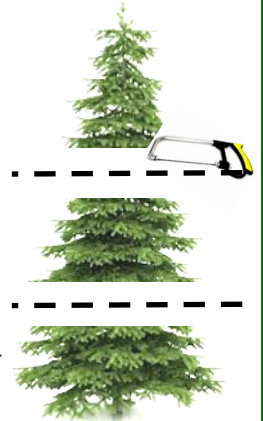

The purpose of Snow Angels is to identify and link Cheney residents who are physically unable to shovel snow with those who are able and willing to volunteer to do it for them.

If you need assistance or can volunteer your help shoveling or coordinating these services, please call the City of Cheney during normal business hours at 509-498-9293 or 498-9200. We will forward your request/offer to the volunteer coordinator.

Christmas Tree Disposal

Cheney Solid Waste crews will be happy to pick up your tree on your regular garbage pickup day. But first, it may need to be cut into segments: less than 6 feet long, cut in half; over 6 feet long, cut in thirds. Place segments at the curb next to your garbage cart. There will be an extra charge of \$3.44 on your next bill.

Do NOT put tree sections in your fireplace or woodstove. Dry trees are extremely flammable and burn explosively. Short pieces are fine to use in an outdoor fire pit, as long as it has a spark arrester and there is not a current burn ban.

Meeting Dates & Events
